

HACKMAN BROS.

20% SHOW PIG BULLET

TI35

MEDICATED

To Increase the Digestibility of Phytin-Bound Phosphorus
in Complete Swine Grower Diets

Control of swine dysentery associated with *Brachyspira* (formerly *Serpulina* or *Treponema*) *hyodysenteriae* susceptible to Tiamulin. Feed continuously a sole ration on premises with a history of swine dysentery but where signs of disease have not yet occurred or following an approved treatment of the disease. Control of porcine proliferative enteropathies (ileitis) associated with *Lawsonia intracellularis*. Feed continuously as sole ration for not less than 10 days.

ACTIVE DRUG INGREDIENTS

Tiamulin Hydrogen Fumarate 35 G/TON

FTU/LB*

*One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micromol of inorganic phosphorus per minute. Environmental factors such as feed pH, moisture, and processing methods such as pelleting or extrusion, may affect enzyme activity.

INGREDIENTS

Grain products, plant protein products, vegetable oil, animal protein products, roughage products, calcium carbonate, calcium phosphate, salt, L-lysine, dl-methionine hydroxy analogue, L-threonine, dried *Lactobacillus acidophilus* fermentation product, natural and artificial flavor, choline chloride, potassium chloride, pork fat (preserved with BHA), vitamin E supplement, manganese sulfate, zinc proteinate, ferrous sulfate, selenium yeast, niacin supplement, propionic acid (a preservative), calcium pantothenate, sorbic acid (a preservative), riboflavin supplement, vitamin A supplement, vitamin B-12 supplement, pyridoxine hydrochloride, silicon dioxide, vitamin D-3 supplement, folic acid, biotin, inulin, maltodextrin, citric acid, monocalcium phosphate, potassium sorbate (a preservative), sodium citrate, sodium benzoate, calcium propionate (a preservative), iron proteinate, magnesium sulfate, L-ascorbyl-2-polyphosphate, zinc methionine, zinc sulfate, manganese methionine complex, copper lysine complex, copper sulfate, cobalt glucoheptonate, menadione sodium bisulfite complex (source of vitamin K activity), lecithin, ethoxylated mono-diglycerides, propylene glycol, corn syrup solids, basic copper chloride, zinc oxide, manganese proteinate, natural flavor, thiamine mononitrate, dicalcium phosphate, artificial flavor, yucca schidigera extract, ammonium hydroxide, mineral oil, copper proteinate, acetic acid (a preservative), benzoic acid (a preservative), chromium propionate, processed grain by-products, tryptophan, *Aspergillus oryzae* fermentation extract, dried *Trichoderma reesei* fermentation extract (phytase), hydrolyzed yeast, menadione sodium bisulfate complex, tartaric acid, verxite granules, ethylenediamine dihydrochloride

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for

swine and is not intended for other species.

FEEDING DIRECTIONS:

Feed as the sole ration to pigs weighing 50 to 100 pounds. Provide a source of clean, fresh drinking water.

WARNING: Withdraw medicated feed 2 days before slaughter.

CAUTION: Use as the only source of Tiamulin. Do not feed undiluted. Do not feed to animals other than swine. The effects of Tiamulin on swine productive performance, pregnancy and lactation have not been determined. Swine being treated with Tiamulin should not have access to feeds containing polyether ionophores (e.g. Monensin, Lasalocid, Narasin, Salinomycin and Semduramicin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feeds.

SPECIAL CONSIDERATION: Protect medicated feed from excessive temperatures. Do not store at warm temperatures, 104°F (40°C), for more than 7 days.

Net Weight 50 lb (22.68 kg)
